

**Providing Heavy Load Moving Rollers and Systems Since 1953!**

Hilman Rollers are high capacity, low profile roller dollies used for moving, shifting and positioning extremely heavy weights. Used as machinery dollies, load skates, slides, low profile wheels, casters, guides, linear bearings, or heavy-duty conveyors. With capacities ranging from .75 to over 5,000 tons, Hilman Rollers are the solution for practically every heavy-moving situation. Since 1953, Hilman Rollers has addressed applications in numerous industries, including oil and gas exploration, bridge building, heavy construction, ship building, research equipment, structural moving, power generation, manufactured housing, and many others. Solve even your most complex moving needs with Hilman Rollers.
